

GLOSS BOSS[®]

GB1090 Electric Burnisher

The original "Gloss Boss" burnisher operates at 1090 RPM's, six times faster than a conventional floor machine. Operator moves the 1090 at normal walking speed in a straight line rather than side-to-side. This reduces fatigue and increases productivity. Perfect for buffing and polishing all types of hard surface floor. Spray buff attachment is optional.

PULLMAN-HOLT

GB1090 Electric Burnisher Features:

- Heavy-duty slow release 15AMP circuit breaker protects against overload.
- Sealed main wheel bearings are permanently lubricated with steel hubs and positive locking nuts.
- 50 ft. power cord enables operator to cover a large area without changing outlets.
- Semi-pneumatic 6" non-marking rubber main wheels with permanently lubricated ball bearings.
- Permanently welded wheel axles maintain alignment and precision balance improving machine operation.
- Safety latch, thumb operated, prevents accidental start-up.

Specifications:

Coverage:	15,000 Sq. Ft. of floor area per hour
Motor:	Heavy-duty single phase 1.5 HP, 120V, 60HZ dual capacitor motor provides necessary power for burnishing.
Pad Speed:	1090 RPM, 20" pad diameter UL listed.
Pad Drive System:	Dynamically balanced, cast iron pulley with six groove poly V belt drive and permanently lubricated, self alignment bearings. Pad driver shaft 1" dia.
Pad Drive Block:	1" marine plywood with centering and locking device to accept 20" pads.
Construction:	Chassis - 12 gauge welded steel with corrosive resistant, baked enamel finish. Handle - 1/4" dia. chrome plated, heavy gauge steel pipe. Switch Box - Die cast aluminum with corrosion resistant, baked enamel finish.
Warranty:	Motor 3 years, Parts 1 year.
Model:	UHS-20F (B520100); Shpg. Wt. 103 lbs., 1 ctn.
