

# PULLMAN-HOLT

Worn as a backpack, this lightweight, portable vacuum is ideal for commercial buildings, schools and healthcare facilities. This powerful vacuum travels easily with you as you clean in congested areas, aisles and stairs. The PorterVac comes equipped with a full assortment of tools and accessories to meet a wide variety of dry pick-up applications.

## Features:

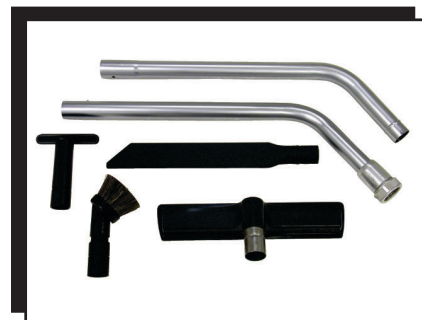

- Two-stage, 1.7HP, Ametek motor with thermal protection provides powerful suction and guards against overheating.
- Four-stage filtration to ensure clean air exhaust.
- Padded harness with handle relieves stress to the body, enhances cleaning performance and is easy to transport when unit is not worn.
- Rugged rotational molded polyethylene construction will withstand years of hard use.

## **P5 PorterVAC**

### **Harness**

Padded shoulder and hip harness provides optimum operator comfort.

### **Hip Mounted Power Switch**

Hip mounted power switch for easy on/off.

### **P5 Filter Assembly**

Easy access paper filter bag for easy, quick disposal.

Cloth filter bag provides secondary filtration

Specially designed air intake ports

Automatic self adjusting brush

### **"Float-a-matic" Carpet/Floor Tool**

The Float-a-matic is a complete floor surface tool that allows you to move from hard floor to carpet without activating a pedal. The floating brush strip automatically adjusts to surface heights and provides superior, noticeable results in carpet grooming. The specially design air intake ports maintains excellent airflow even when traversing tough transition areas between carpet and hard floors. This same innovation allows fast, superior cleaning of area rugs and walk-off mats without the risk of lifting or moving the surface. Pullman-Holt's "float-a-matic" is the ideal backpack tool.
